CSE241 HOMEWORK 7

- Starting Game, taking input(boardsize and gamemode)

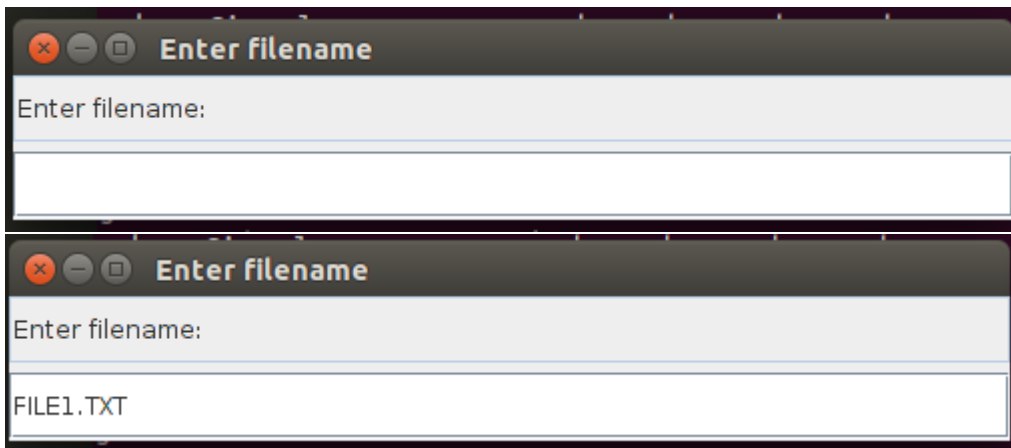

Note: x always plays the first move.

- Computer plays first move, because we chose Computer vs User:
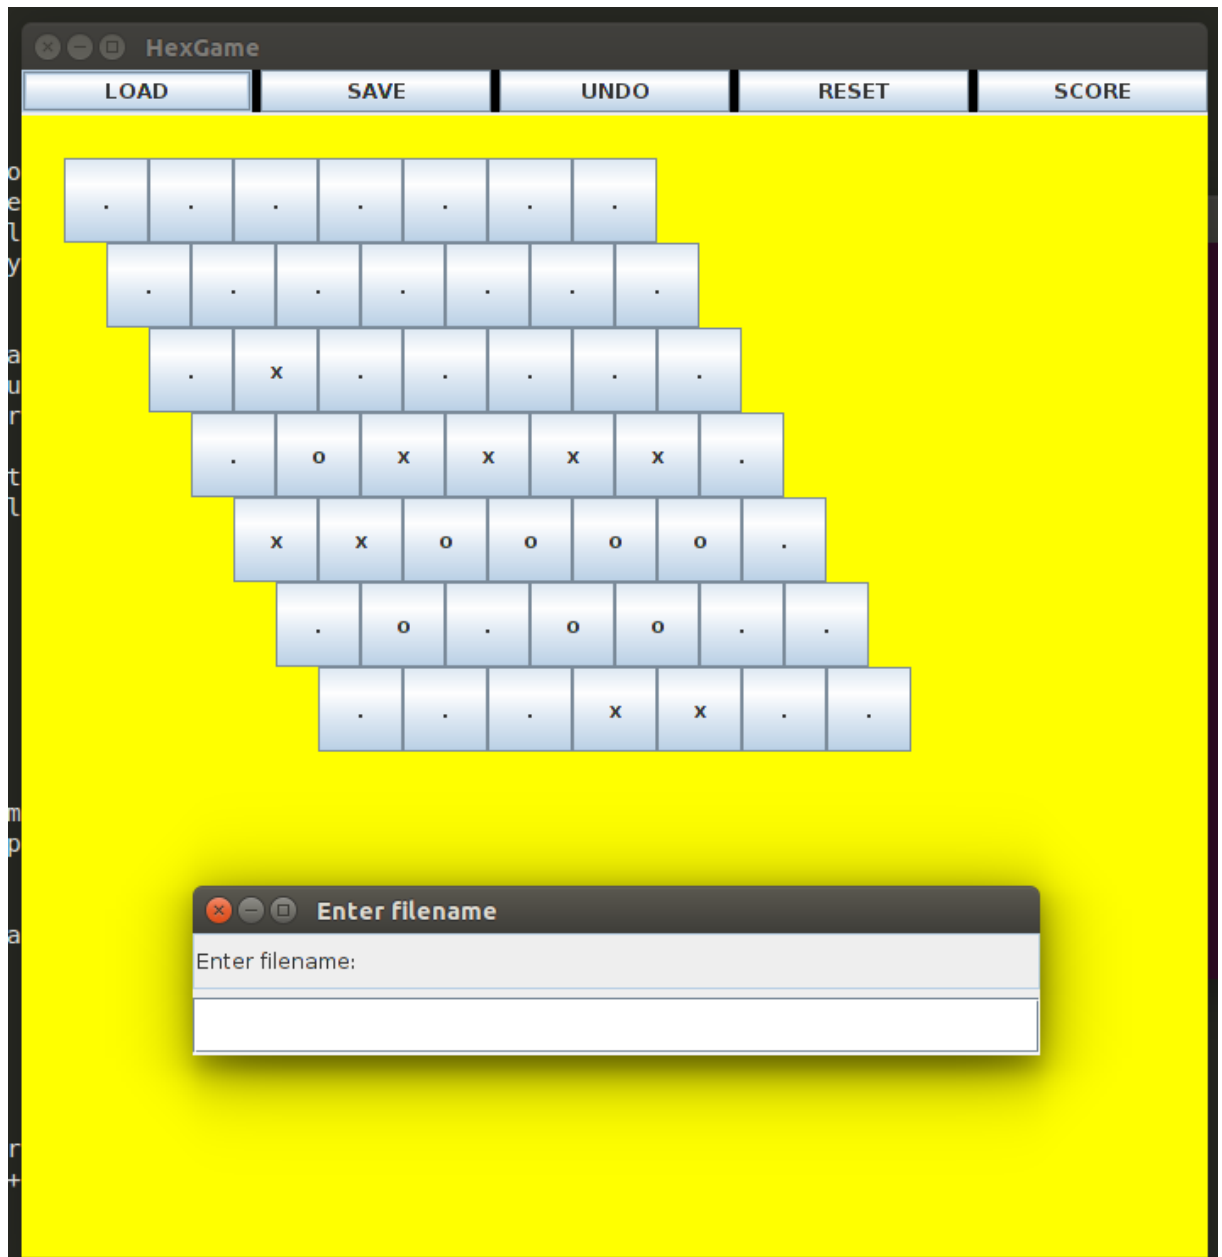

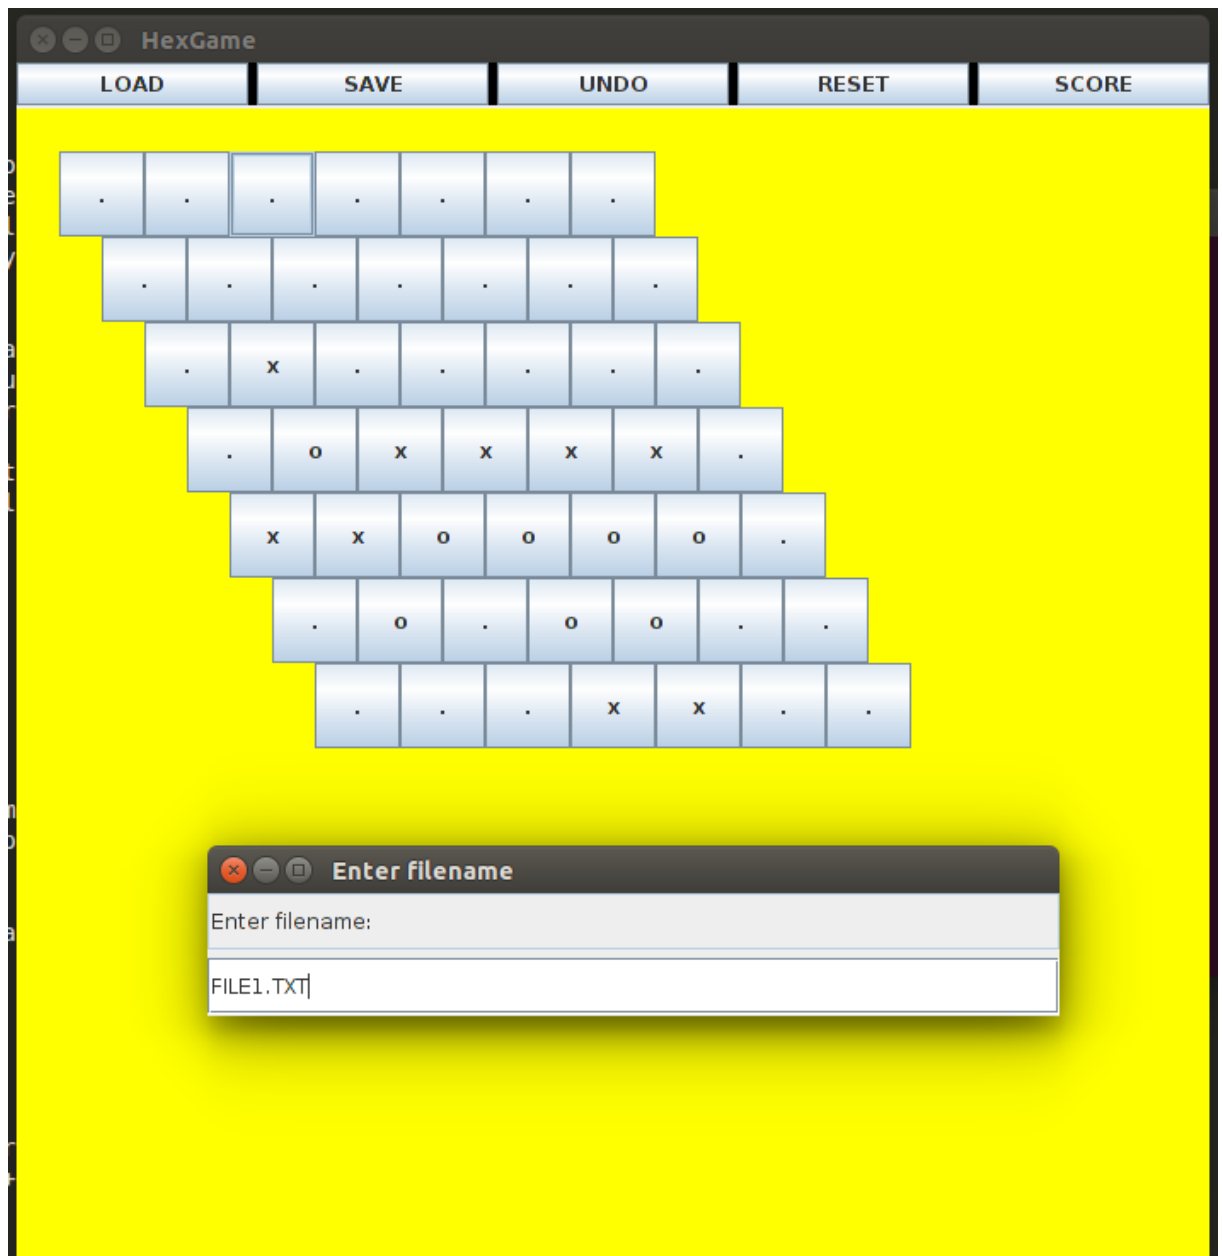

- LOAD

Main Frame is closed

And press enter, Main Frame is opened

- SAVE
 Main frame is not closed
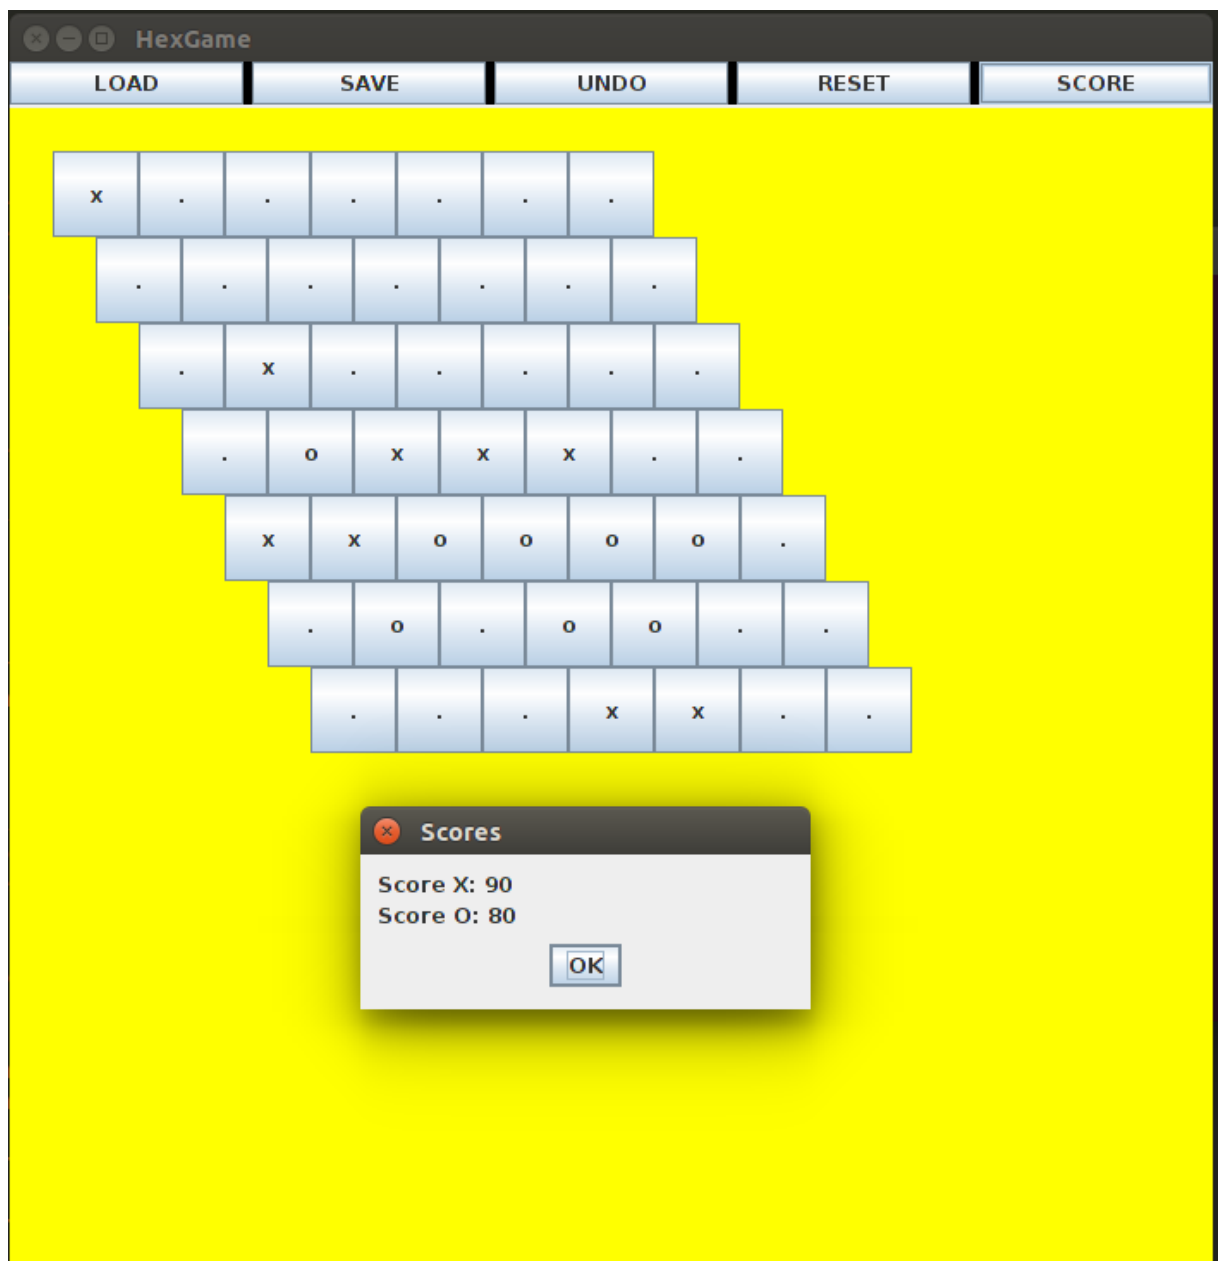

And press enter. Done.

- UNDO

- RESET

  The board is empty and it is time to computer's move(game mode is computer vs user. Computer always plays the first move). Computer made its move immediately:
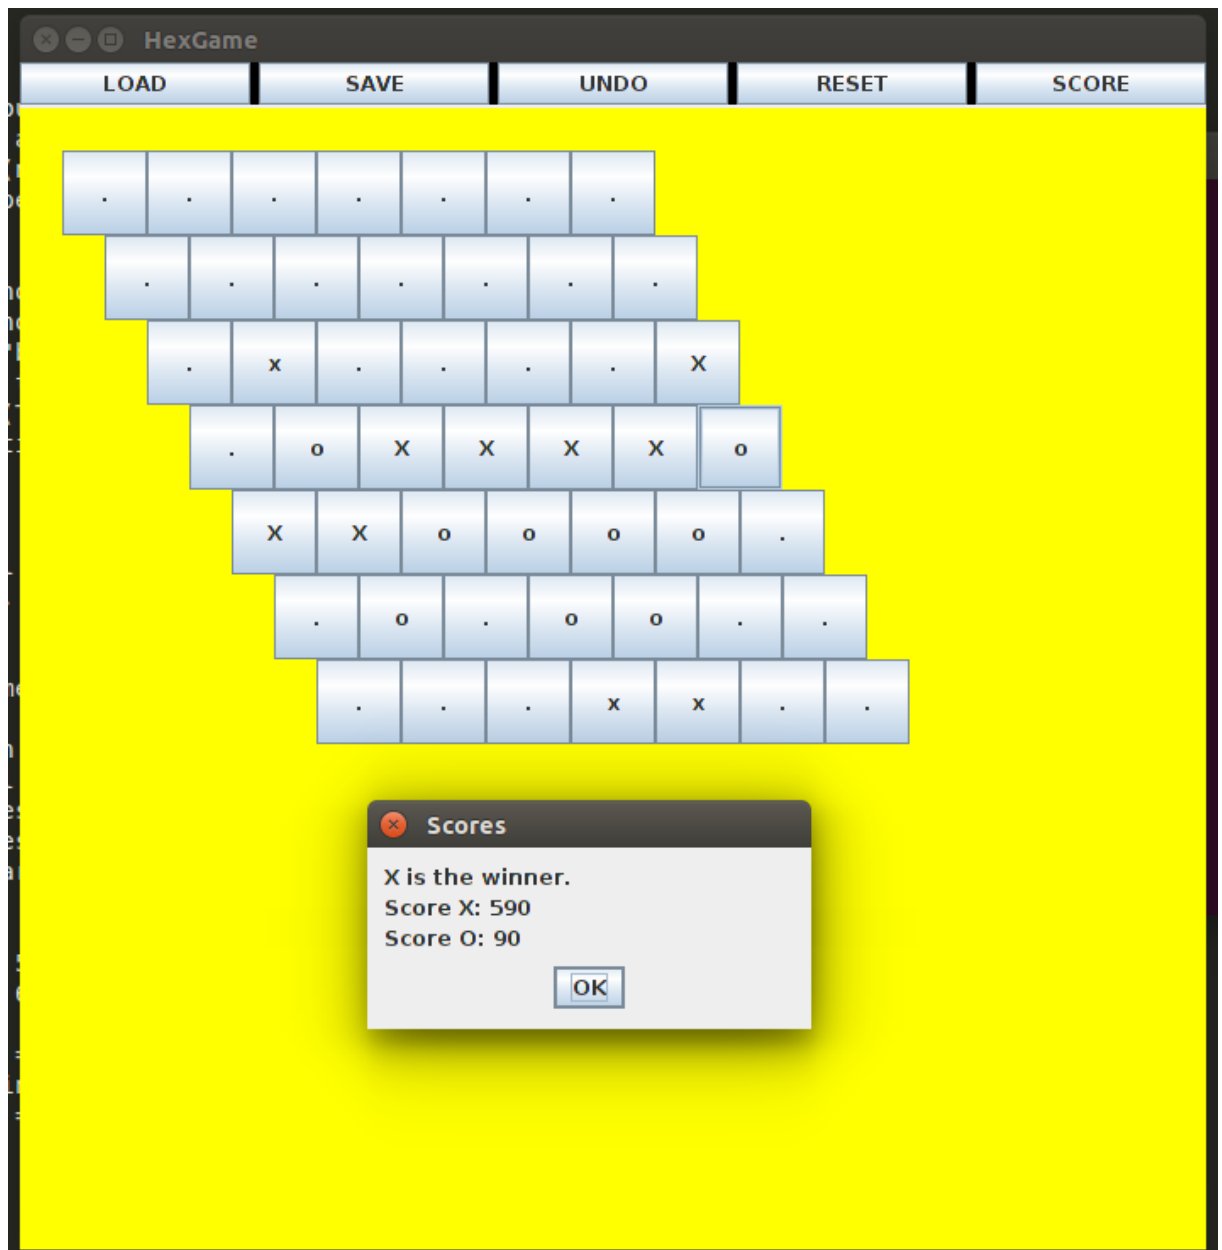

- SCORE

- Winner

Close frames and quit the game.

Goodbye!
